

AK-SAR-BEN AMATEUR RADIO CLUB, INC. Post Office Box 291 — Downtown Station Omaha, Nebraska 68101 Amateur Pro CLUB

Vol. XXXV No. 7

July 1985

World Radio founder Leo Meyerson shows off some 1920's items from his collection of vintage electronics equipment. All the devices shown, and more, would have to be combined to equal the functions of the modern clock-radio/telephone at Meyerson's fingertips. Shown (from left) are an amplifier tube; a carbon microphone; clock-radio/telephone of today; radio earphones; a "cathedral" loudspeaker; and a one-tube Crosley Pup receiver. **HAM HUM** is the official organ of the Ak-Sar-Ben Amateur Radio Club, Inc. of Omaha, Nebraska, mailed monthly to all members and to others upon request.

Full permission is granted for reprinting articles appearing in this official organ provided a credit line is given to HAM HUM and in reprinting, to the author and publication from which the article was taken.

NEXT MEETING

WHEN: July 12, 1985

TIME: 7:30 P.M.

WHERE: Heartland Chapter American Red Cross 3838 Dewey Omaha, NE

PROGRAM: Discussion of Field Day and happenings.

MINUTES OF THE BOARD OF TRUSTEES MEETING June 6, 1985, Red Cross Building 3838 Dewey, Omaha, Nebraska

The meeting was called to order by the President, Dave Hamilton, NØCLW at 7:35 PM.

The proposed Club Budget for 1985 was submitted to the Board and approved unanimously.

A proposal was made to change the Board meeting night from the first Wednesday of the month to the first Tuesday and approved unanimously.

Equipment Chairman Chuck, NØAZ reported on the status of equipment for Field Day on June 22 & 23, 1985.

The methods of publishing the Ham Hum in the future were discussed.

Convention Chairman Jim, NØAIH reported on Convention progress.

Meeting adjourned.

Respectfully Submitted Virgil Wamsat, KBØBW Secretary

MINUTES OF THE GENERAL MEMBERSHIP MEETING June 14, 1985, Red Cross Building 3838 Dewey, Omaha, Nebraska

The meeting was called to order at 7:45 PM by President Dave Hamilton, NØCLW, with the Pledge of Allegiance.

Visitors were presented and introduced themselves.

Motion to accept the minutes of the meeting of the previous month as published in Ham Hum was approved unanimously.

Seven new members were unanimously accepted into membership.

President Dave, NØCLW, handed out awards to those members working the communications for the State Track Meet at Burke High School, also membership certificates.

Scott, WBØQPP, reported on the Club Picnic to be held at Field Day Site, Saturday, June 22, 1985. The picnic is to be potluck.

Field Day Chairman Greg, NØBTN, reported on progress on Field Day preparations.

(Continued on next page)

July 1985

(Continued from preceding page)

Sid, WØWWH, reported on Open House at Offutt AFB on July 7, 1985 and asked for volunteers to handle communications.

Jerry Kohn WDØEGK, from the Lincoln ARC, asked for volunteers to handle communications for the Cornhuskers State Games to be held July 19, 20 & 21. There will be 19 sporting events in 30 locations, from Lincoln to Branched Oak Lake. He needs a total of 50 people.

Vern, WBØGQM, reported on FCC news.

There will be a 3-hour river cruise again this year on Aug. 23 at 7:00 PM at Haworth Park in Bellevue. We will have a live band this year. \$10.00 per person.

A licensing exam will be held at the Red Cross Bldg on July 8. Send check and application to Brian Zdan, KMØY.

If you are a Shriner, you are needed for a Communication Club that is starting. Contact Dick Eilers, WØYZV.

Jim, N5DZZ, reported on Auction receipts and handed out awards for those helping at the Auction.

Lloyd, KØDKM, donated a weather radio, that he won at the Auction, and this was raffled off at the Club meeting after the break for coffee. The radio was won by Ron, WBØMQM.

An interesting program on traffic handling was presented by Jerry, WDØEGK.

Meeting adjourned.

Respectfully Submitted, Virgil Wamsat, KBØBW Secretary

RIVER CRUISE AND DINNER

LEO I. MEYERSON (WØGFQ)

Leo Meyerson; manufacturer, distributor, retailer, and amateur radio operator, was born in Omaha, Nebraska, March 7, 1911.

As a ten year old, he was intensely interested in wireless communication and listened to KDKA Pittsburgh and other stations on a one tube UV 199 regenerative receiver. The first set he built used a galena crystal with a "cat's whisker." In 1924, when Leo was 13, he built a low power transmitter from a circuit appearing in a "Radio Digest" magazine and played music over the air until he found out that it was illegal. His next venture resulted in hearing hams all over the country after removing some wire from the plug-in coil of a Grebe receiver. Four years later he obtained his amateur radio license, W9GFQ, which was later changed to WØGFQ.

During his high school days, Leo played piano and organ for a Council Bluffs silent movie theater. He was promised a job at the Oriental Theater in Chicago, where he could also study at the Conservatory of Music. His parents convinced him otherwise, as soon the "talkies" would eliminate the need for organists. Leo enrolled at the University of Nebraska where he continued his music studies. After graduation, he joined his father in the family owned grocery business in Council Bluffs and continued with his ham radio hobby.

In 1933, Leo married Helen Wolinsky of St. Joseph, Missouri, whom he had courted for 2 years over amateur radio. At this time he opened a neighborhood grocery store and when his lease expired, decided to start a radio parts business. His father gave him \$1000.00 to start World Radio Laboratories and told him that when the "money goes," he could return to his father's grocery business.

Leo's first location in southwestern lowa was selling radio parts and accessories to dealers and radio stations. In the late 30's he began to receive letters from hams ordering not only parts, but requesting construction information on transmitters. Other operators wanted WRL to build equipment. Leo's first WRL transmitters were 70 watts using 6L6 tubes. The transmitters were called WRL 70's and were the first electronic apparatus manufactured by WRL.

What started to become a productive business crumbled with the U.S. going to war in 1941, as hams were taken off the air for the duration. While the war eliminated World Radio Lab's ham business, it also offered a new opportunity for government business.

Going into partnership with another amateur, the company began manufacturing quartz crystals and introduced many labor-saving ideas and new manufacturing techniques which shortened the production

time. Their output reached 25,000 crystals per month. As a result of their efforts and efficient operation, they received the Army/Navy "E" citation in 1944.

After the war, Leo's partner continued the crystal manufacturing business and Leo returned to his distributing company. Hams wanting to get back on the air quickly created a big demand for transmitting equipment. Meyerson then formed WRL Electronics, a separate division for the manufacturing of radio equipment. In 1956 the manufacturing company's name was changed to GLOBE Electronics to avoid confusion with the distributor operation. Later, the World Radio Export Corporation was formed to provide shipment of equipment overseas.

Leo's expertise in ham radio was utilized to the fullest extent during the Council Bluffs flood of 1952 when he was appointed communications director by the mayor. By an appeal through ham radio, over two hundred mobile operators from all parts of the country arrived to help patrol the streets to prevent looting of evacuated businesses and homes.

Both World Radio Laboratories and Globe Electronics continued to grow. In 1958, Globe created the CB-100, a citizen's band radio, and was deluged with 10,000 orders almost overnight. In September 1959, Textron purchased Globe Electronics and retained Leo as president. He later sold his interests to the parent company and resumed his activities as president of World Radio Laboratories.

In 1961 Leo organized a new company to operate independently called GALAXY Electronics, and appointed 80 distributors throughout the country, including WRL. Galaxy was one of the first companies to produce a high quality single side band transceiver that sold at a price several hundred dollars lower than its nearest competitor. Galaxy introduced the Galaxy V transceiver, the Citizen's band and Ham compression amplifier, and the Duo-Bander, 80 and 40 meter transceivers, as well as a completely transistorized receiver for industrial, commercial, and laboratory use. Leo sold Galaxy to Hy-Gain Electronics Mfg. Co. in 1970.

Not having abandoned his hobby, Leo once joined five other hams for a DX-pedition in British Honduras. In two days they made over 3,000 contacts. When Leo made the trip, he became the only foreigner to be granted a British Honduras license, VPGFQ.

In 1960, Leo's son Larry joined WRL. His interest in the business was primarily concerned with Hi-Fi and stereo. By 1969, Larry had become president of WRL. His call is NØBDY. Larry successfully expanded the business to twenty three stores. During that time the company changed from a mail order business to retailing of stereo products.

(Continued on next page)

(Continued from preceding page)

Leo remains active, although retired from WRL. He continues to enjoy his hobbies of music, amateur radio, and tennis. He has played the organ or piano at hundreds of ham conventions, sing-alongs, style shows, banquets, etc. The last convention he played was for the National Q.C.W.A. convention in Hartford, Conn. in 1984.

His list of awards, both in the industry and for hundreds of civic activities is lengthy. One of his most gratifying honors was the "Leo I. Meyerson Emergency Communications Center" dedicated to him in 1977 by the Omaha metropolitan area ham radio enthusiasts.

Leo has been extremely active in local and other organizational affairs and can be very proud of being an ardent supporter, member, or officer in B'nai B'Brith; AK-SAR-BEN Radio Club; Kiwanis; Council Bluffs Chamber of Commerce; Red Cross; YMCA; Shriners; Masons; Elks; QCWA; and many other organizations too numerous to mention.

Leo has been a pioneer in building amateur radio equipment and is grateful that he has been able to spend many years earning his living in a business devoted to serving the radio amateur and electronic industry.

de Chaverim of Delaware Valley, Inc., (Cherry Hill, NJ)

Our thanks to Tselil Harmoni for this article.

Ak-Sar-Ben Amateur Radio Club, Inc. is happy to join with Chaverim of Delaware Valley, Inc. in extending congratulations to Leo Meyerson, WØGFQ, on behalf of the 50th anniversary of WRL.

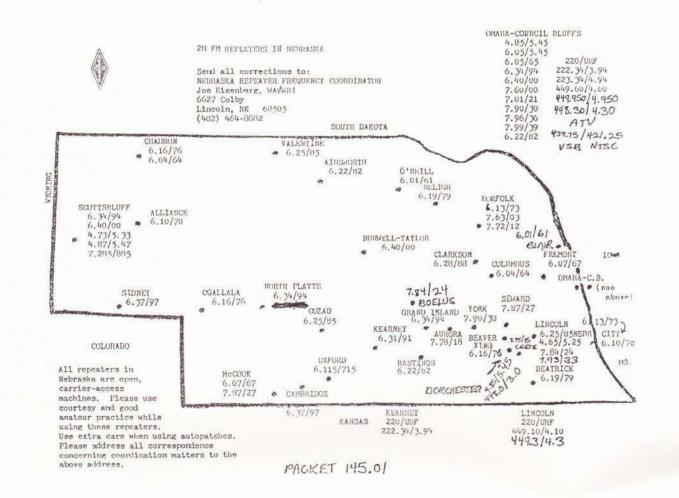

MEYER CHILDREN'S REHABILITATION INSTITUTE BIKE-A-THON ON JUNE 9, 1985

This was approximately 20 miles with several check points. Net Control was Dr. Charles Rush, NØAZ. Manning some points were Dr. Bennett Kutler, NØANF; Dr. John Moore, WAØGBR; Hector D. Mota, KAØTLL; Dr. James R. Newland, KØEMC; Dr. Paul Steffes, KCO——.

LARSEN ANTENNAS TAKE ON SHUTTLE COMMUNICATIONS

"The operation was an unqualified success!", so said ARRL's general Manager Dave Summer, KIZZ reviewing the recent amateur radio operation of Owen Garriott, W5LFL, from the orbiting Space Shuttle Columbia. And so it was also for Carl J. Henniger, KA7GHR, who made his successful contact on an afternoon shuttle pass over Portland, Oregon.

"I did it with my mobile rig sitting in front of my garage with 45 watts of power feeding into a Larsen Külrod Antenna", Carl said. "I was sure thrilled 'cause I was competing with the moon bounce boys with their yagis and big antenna arrays."

KA7GHR also uses a Larsen Kulduckie portable antenna on his handheld rig and monitored the space shuttle with that transceiver though he didn't try a contact. "It was just as good as you ever hear somebody talk on two meters", Carl concluded.
